## Subject index

Volume 73 (1994)

**Active T lymphocytes; Ageing; Bromodeoxyuridine; Electron microscopy; Flow cytometry** 73, 17

**Age; Glyoxalase I; Glyoxalase II** 73, 39

**Ageing; Active T lymphocytes; Bromodeoxyuridine; Electron microscopy; Flow cytometry** 73, 17

**Ageing; Autofluorescence; Cultured cells; Myocardium; Lipofuscin; Lysosomes; Oxygen radicals** 73, 79

**Ageing; Erythrocyte; Sorbitol; Aldose reductase; Sorbitol dehydrogenase; Polyol pathway** 73, 137

**Ageing; Liver; Kupffer cells; Phagocytosis** 73, 157

**Ageing; Muscle hypertrophy; Velocity of shortening; Muscle force; Twitch** 73, 97

**Ageing; Angiogenesis; Endothelial cells; PDGF** 73, 189

**Ageing; Collagens I and III; Human skin fibroblasts; Body site variations** 73, 179

**Ageing; Cytoskeleton; Cerebellar cortex; Immunohistochemistry; Phosphorylated neurofilament proteins** 73, 9

**Ageing; Energy restriction; Dietary restriction; Glucose; Corticosterone** 73, 209

**Ageing; Friend virus; Replication** 73, 145

**Aging; Hemopoiesis; Senescence-accelerated (SAM-P) mice** 73, 127

**Aging; Microanatomy; Brain; L-Deprenyl; Rat** 73, 113

**Aging; Non-enzymatic glycation; Food restriction; Carbonyls; Collagen; Hypoxic heart** 73, 47

**Aging; Pituitary gland; Gonadotrophs; Luteinizing hormone; Follicle-stimulating hormone; Quantitative immunohistochemistry** 73, 87

**Aging; Superoxide dismutase; Reactive oxygen species; Lymphocytes** 73, 27

**Aging; T lymphocytes; Thymic microenvironment** 73, 169

**Aldose reductase; Erythrocyte; Sorbitol; Sorbitol dehydrogenase; Polyol pathway; Ageing** 73, 137

**Allium cepa; Ethylene; Cobalt chloride; Selective ribosomal cistron regulation** 73, 1

**Alzheimer's disease; Cholesterol esterification; LCAT; Lipoproteins; Down's syndrome** 73, 69

**Angiogenesis; Aging; Endothelial cells; PDGF** 73, 189

**Ascorbate; Oxidative stress; Lipid peroxidation; Development; Rat brain; NADPH** 73, 197

**Autofluorescence;** Ageing; Cultured cells; Myocardium; Lipofuscin; Lysosomes; Oxygen radicals 73, 79

**Body site variations;** Collagens I and III; Human skin fibroblasts; Aging 73, 179

**Brain;** Aging; Microanatomy; L-Deprenyl; Rat 73, 113

**Bromodeoxyuridine;** Active T lymphocytes; Ageing; Electron microscopy; Flow cytometry 73, 17

**Carbonyls;** Non-enzymatic glycation; Food restriction; Collagen; Aging; Hypoxic heart 73, 47

**Cell aging;** Epidermal growth factor; HER-2; Senescence; 2BS fibroblasts 73, 57

**Cerebellar cortex;** Cytoskeleton; Aging; Immunohistochemistry; Phosphorylated neurofilament proteins 73, 9

**Cholesterol esterification;** Alzheimer's disease; LCAT; Lipoproteins; Down's syndrome 73, 69

**Cobalt chloride;** *Allium cepa*; Ethylene; Selective ribosomal cistron regulation 73, 1

**Collagen;** Non-enzymatic glycation; Food restriction; Carbonyls; Aging; Hypoxic heart 73, 47

**Collagens I and III;** Human skin fibroblasts; Aging; Body site variations 73, 179

**Corticosterone;** Aging; Energy restriction; Dietary restriction; Glucose 73, 209

**Cultured cells;** Ageing; Autofluorescence; Myocardium; Lipofuscin; Lysosomes; Oxygen radicals 73, 79

**Cytoskeleton;** Aging; Cerebellar cortex; Immunohistochemistry; Phosphorylated neurofilament proteins 73, 9

**L-Deprenyl;** Aging; Microanatomy; Brain; Rat 73, 113

**Development;** Oxidative stress; Lipid peroxidation; Rat brain; Ascorbate; NADPH 73, 197

**Dietary restriction;** Aging; Energy restriction; Glucose; Corticosterone 73, 209

**Diffusion process;** Survival; Stochastic; Random; First Passage time; Mortality rate 73, 223

**Down's syndrome;** Alzheimer's disease; Cholesterol esterification; LCAT; Lipoproteins 73, 69

**Electron microscopy;** Active T lymphocytes; Ageing; Bromodeoxyuridine; Flow cytometry 73, 17

**Endothelial cells;** Aging; Angiogenesis; PDGF 73, 189

**Energy restriction;** Aging; Dietary restriction; Glucose; Corticosterone 73, 209

**Epidermal growth factor;** Cell aging; HER-2; Senescence; 2BS fibroblasts 73, 57

**Erythrocyte;** Sorbitol; Aldose reductase; Sorbitol dehydrogenase; Polyol pathway; Ageing 73, 137

**Ethylene;** *Allium cepa*; Cobalt chloride; Selective ribosomal cistron regulation 73, 1

**2BS fibroblasts;** Cell aging; Epidermal growth factor; HER-2; Senescence 73, 57

**First Passage time;** Survival; Stochastic; Random; Diffusion process; Mortality rate 73, 223

**Flow cytometry;** Active T lymphocytes; Ageing; Bromodeoxyuridine; Electron microscopy 73, 17

**Follicle-stimulating hormone;** Aging; Pituitary gland; Gonadotrophs; Luteinizing hormone; Quantitative immunohistochemistry 73, 87

**Food restriction;** Non-enzymatic glycation; Carbonyls; Collagen; Aging; Hypoxic heart 73, 47

**Friend virus;** Replication; Aging 73, 145

**Glucose;** Aging; Energy restriction; Dietary restriction; Corticosterone 73, 209

**Glyoxalase I;** Glyoxalase II; Age 73, 39

**Glyoxalase II;** Glyoxalase I; Age 73, 39

**Gonadotrophs;** Aging; Pituitary gland; Luteinizing hormone; Follicle-stimulating hormone; Quantitative immunohistochemistry 73, 87

**Hemopoiesis;** Aging; Senescence-accelerated (SAM-P) mice 73, 127

**HER-2;** Cell aging; Epidermal growth factor; Senescence; 2BS fibroblasts 73, 57

**Human skin fibroblasts;** Collagens I and III; Aging; Body site variations 73, 179

**Hypoxic heart;** Non-enzymatic glycation; Food restriction; Carbonyls; Collagen; Aging 73, 47

**Immunohistochemistry;** Cytoskeleton; Aging; Cerebellar cortex; Phosphorylated neurofilament proteins 73, 9

**Kupffer cells;** Ageing; Liver; Phagocytosis 73, 157

**LCAT;** Alzheimer's disease; Cholesterol esterification; Lipoproteins; Down's syndrome 73, 69

**Lipid peroxidation;** Oxidative stress; Development; Rat brain; Ascorbate; NADPH 73, 197

**Lipofuscin;** Ageing; Autofluorescence; Cultured cells; Myocardium; Lysosomes; Oxygen radicals 73, 79

**Lipoproteins;** Alzheimer's disease; Cholesterol esterification; LCAT; Down's syndrome 73, 69

**Liver;** Ageing; Kupffer cells; Phagocytosis 73, 157

**Luteinizing hormone;** Aging; Pituitary gland; Gonadotrophs; Follicle-stimulating hormone; Quantitative immunohistochemistry 73, 87

**Lymphocytes;** Superoxide dismutase; Reactive oxygen species; Aging 73, 27

**Lysosomes;** Ageing; Autofluorescence; Cultured cells; Myocardium; Lipofuscin; Oxygen radicals 73, 79

**Microanatomy;** Aging; Brain; L-Deprenyl; Rat 73, 113

**Mortality rate;** Survival; Stochastic; Random; Diffusion process; First Passage time 73, 223

**Muscle force;** Muscle hypertrophy; Velocity of shortening; Ageing; Twitch 73, 97

**Muscle hypertrophy;** Velocity of shortening; Muscle force; Ageing; Twitch 73, 97

**Myocardium;** Ageing; Autofluorescence; Cultured cells; Lipofuscin; Lysosomes; Oxygen radicals 73, 79

**NADPH;** Oxidative stress; Lipid peroxidation; Development; Rat brain; Ascorbate 73, 197

**Non-enzymatic glycation;** Food restriction; Carbonyls; Collagen; Aging; Hypoxic heart 73, 47

**Oxidative stress;** Lipid peroxidation; Development; Rat brain; Ascorbate; NADPH 73, 197

**Oxygen radicals;** Ageing; Autofluorescence; Cultured cells; Myocardium; Lipofuscin; Lysosomes 73, 79

**PDGF;** Aging; Angiogenesis; Endothelial cells 73, 189

**Phagocytosis;** Ageing; Liver; Kupffer cells 73, 157

**Phosphorylated neurofilament proteins;** Cytoskeleton; Aging; Cerebellar cortex; Immunohistochemistry 73, 9

**Pituitary gland;** Aging; Gonadotrophs; Luteinizing hormone; Follicle-stimulating hormone; Quantitative immunohistochemistry 73, 87

**Polyol pathway;** Erythrocyte; Sorbitol; Aldose reductase; Sorbitol dehydrogenase; Ageing 73, 137

**Quantitative immunohistochemistry;** Aging; Pituitary gland; Gonadotrophs; Luteinizing hormone; Follicle-stimulating hormone 73, 87

**Random;** Survival; Stochastic; Diffusion process; First Passage time; Mortality rate 73, 223

**Rat brain;** Oxidative stress; Lipid peroxidation; Development; Ascorbate; NADPH 73, 197

**Rat;** Aging; Microanatomy; Brain; L-Deprenyl 73, 113

**Reactive oxygen species;** Superoxide dismutase; Aging; Lymphocytes 73, 27

**Replication;** Friend virus; Aging 73, 145

**Selective ribosomal cistron regulation;** *Allium cepa*; Ethylene; Cobalt chloride 73, 1

**Senescence-accelerated (SAM-P) mice;** Aging; Hemopoiesis 73, 127

**Senescence;** Cell aging; Epidermal growth factor; HER-2; 2BS fibroblasts 73, 57

**Sorbitol dehydrogenase;** Erythrocyte; Sorbitol; Aldose reductase; Polyol pathway; Ageing 73, 137

**Sorbitol;** Erythrocyte; Aldose reductase; Sorbitol dehydrogenase; Polyol pathway; Ageing 73, 137

**Stochastic;** Survival; Random; Diffusion process; First Passage time; Mortality rate 73, 223

**Superoxide dismutase;** Reactive oxygen species; Aging; Lymphocytes 73, 27

**Survival;** Stochastic; Random; Diffusion process; First Passage time; Mortality rate 73, 223

**T lymphocytes;** Aging; Thymic microenvironment 73, 169

**Thymic microenvironment;** Aging; T lymphocytes 73, 169

**Twitch;** Muscle hypertrophy; Velocity of shortening; Muscle force; Ageing 73, 97

**Velocity of shortening;** Muscle hypertrophy; Muscle force; Ageing; Twitch 73, 97
